

Summertime Forever

Music and lyrics by Matt Stamm

CHORUS: A
Well I only wish that we could stay and
E
Spend the rest of everyday
D A
In the place where it's summertime forever
A
I'm gonna dream about the time we spent and
E
Send my love to all my friends
D A
And I'll see you when summer comes again

VERSE 1:

 D E A
When I close my eyes I see your face
 D E A D
And I realize how much I love this place
 E A E D
And I know that this is where I wanna be
 E D
With you right next to me
 E
You'll always be

CHORUS

VERSE 2 (Same chords as VERSE 1):

The feelings that I get
Stars in the sky
And I will not forget the summers of my life
Where the days are weeks and each hour is a day
Please don't go away
Please don't go

CHORUS

BRIDGE

 A
The good times, the moonlight
 E
A campfire, and poolside
 D
A food fight, and those nights
 A
When we must have seen a million shooting stars
 E
A first kiss, a big crush
 D
I love you, and so much
 A
The big fields, the veggie meal

I'll see you in Israel
 E
The tower, I'm so scared
 D A
You told me you'd be there to catch me if I fall

The kickball, the free time
E
The bunk time, it's our time
D
I wish there was more time
A
I think about you all the time

The pine trees, pagodas
E
The bug juice, a soda
D
The rainy days and the games we play
A
And the twisted candle burning burning bright
E
You borrowed my flashlight
D
We stayed up the whole night

The counselors
A
I can't wait for the color war

My best friend, the chapel
E D
And snack time, an apple or ice pop
A
And don't stop, and don't stop, and don't stop

VERSE 3 (Same chords as VERSE 1):

I pack up my car
I'm on my way
My parents say it isn't far
I have been counting the days
And the butterflies as I drive through the gate
Now everything's ok
Now everything's ok

LA LA LA... (Same chords as BRIDGE except last line: D-A-E)
